

General Scheme of the Land Development Agency 2020

Comparison with 2019
General Scheme &
Analysis of 2020 Scheme

Fine Gael's LDA

The LDA was announced in September 2018 by the then Taoiseach Leo Varadkar. Its functions included:

- ◆ Strategic management of public lands
- ◆ Delivery of 150,000 new homes over 20 years
- ◆ Provision of 10% social and 30% affordable homes

The agency was established on an interim basis pending the passing of legislation putting it on a statutory footing.

Fine Gael's LDA General Scheme

The General Scheme of the LDA Bill was published in July 2019. Its key provisions included:

- ◆ LDA as an off-balance sheet Designated Activities Company
- ◆ Funded via €1.25bn capitalisation from NTMA and private equity finance
- ◆ Commercial activities not subject to Freedom of Information Acts
- ◆ LDA officials not prescribed as Designated Public Officials under the Regulation of Lobbying Act
- ◆ Limited Land Management functions with weak Compulsory Purchase Powers

The scheme made no reference to social or affordable housing. It was also silent on the need for the agency to address the challenge of climate change.

Oireachtas Housing Committee Pre-Legislative Scrutiny

Following five detailed Pre-Legislative Scrutiny meetings hearing from a wide range of sectors, the Oireachtas Housing Committee submitted a critical report to the Minister. The report, published in December 2019, contained 47 specific recommendations for changes in the General Scheme. These included:

- ◆ Prioritising social and affordable housing
- ◆ Using public land exclusively for public housing
- ◆ Robust compulsory purchase order powers
- ◆ Application of the Freedom of Information Acts
- ◆ Application of the Regulation of Lobbying Act

Fianna Fáil's General Scheme

The new Minister for Housing, Local Government and Heritage Darragh O'Brien published a revised General Scheme of the LDA Bill on 22nd October 2020. The Scheme will be sent to the Oireachtas Housing Committee for Scrutiny.

Below is a detailed Head by Head comparison of the 2019 and 2020 schemes. The new scheme is significantly longer, running to 61 Heads compared to 39 Heads in the initial scheme.

The legal structure of the LDA has been changed significantly. The Scheme has multiple references to affordable housing. It also includes references to climate resistant, low carbon homes. However detailed examination shows that many of the key problems identified by the Oireachtas Housing Committee in 2019 remain. These include:

- ◆ Limited Land Management functions and weak compulsory purchase order powers
- ◆ No mention of social housing
- ◆ Weak definition of Affordable Housing that doesn't guarantee genuine affordability
- ◆ Reliance of equity finance and joint ventures for housing development will push up cost of so-called affordable homes to unaffordable levels
- ◆ Use of public land to deliver unaffordable op-market housing
- ◆ Commercial activities of LDA subsidiaries not covered by Freedom of Information Acts
- ◆ LDA officials not prescribed as Designated Public Officials under the Regulation of Lobbying Act

The new Scheme also includes several new provisions which are also controversial. These include:

- ◆ Granting the LDA Development Agency status allowing it to prepare Strategic Development Zone plans
- ◆ Lack of clarity over valuation method to be used by LDA and other public bodies when acquiring lands
- ◆ Granting the Minister, the power to set the percentage of public lands to be used for affordable housing by way of regulations

Sinn Féin's view

Sinn Féin remains of the view that Government should create an active Land Management Agency with strong compulsory purchase order powers and a significant budget for acquisition of public and private lands.

We do not accept the need for a new state agency for public housing delivery. Rather we remain convinced that resourcing Local Authorities to drive ambitious regional public housing programmes to meet social and affordable need would be more democratic, efficient and cost effective.

Our key concerns with the new General Scheme include:

- ◆ The absence of meaningful land management functions
- ◆ The use of public land for unaffordable open market housing
- ◆ The proposed financing mechanism for the so called 'affordable' homes and its impact on genuine affordability
- ◆ The use of Joint Ventures with private developers to deliver mixed tenure sites (the O'Devaney Gardens model)
- ◆ The lack of transparency and accountability in the commercial activities of LDA subsidiaries
- ◆ The proposed planning role of the LDA particularly if it is used to by-pass Local Authorities and deal directly with An Board Pleanála

Sinn Féin will use the Pre-Legislative Scrutiny sessions of the Oireachtas Housing Committee to tease these and other issues out. We will also table detailed amendments to the Bill, if and when it reaches Committee stage.

We have a once in a lifetime opportunity to redirect our housing system to meet the needs of all those unable to access appropriate, secure and affordable homes. The General Scheme of the LDA does not achieve this and runs the risk of further embedding development models that will exacerbate access to genuinely affordable homes for working people.

Comparison of 2019 and 2020 General Schemes

Head No.	Comparison with 2019 Scheme	Comment
1	Same as 2019 H1	
2	Some amendments to 2019 H2	Reference to 'affordable housing' & inclusion of 'long term social return' in definition of 'commercial basis'
3	Same as 2019 H3	
4	Same as 2019 H4	
5	2019 H5 established LDA as a Designated Activities Company	2020 H5 established LDA as 'body corporate with perpetual succession' & states that 'except where otherwise provided by this Bill... the LDA is independent in the performance of its functions'
6	2019 H5 provides for the LDA constitution to be determined by the Minister for Housing & Public Expenditure and Reform	2020 H5 enables the Minister to 'issue directions of a general policy nature' to the LDA
7	2019 H8 dealt with the Objects of the LDA which is now in 2020 H7	There are some significant changes to this Head including; 'to drive strategic land assembly', 'provide services to local authorities in relation to the planning and development of land', 'a focus on enhancing the stock of climate resistant, low carbon and affordable housing', 'to support the delivery of affordable housing', 'encouragement of innovation in housing design, master planning and construction methods.'
8	This is a completely new Head not contained in the 2019 General Scheme	Affordable housing is defined as rental or purchase properties 'below the prevailing market price or rent in the local authority area'
